Custom Fields Support

Enhance the booking process by incorporating custom fields to collect extra details from customers, catering to your unique business requirements.

The screenshot displays the Pawtly application interface. At the top, a purple header bar contains the word "Settings". Below this, a sidebar menu lists several options: "General", "Misc Settings", "Quick Booking", "Custom Code", and "Customization". The "Custom Fields" section is currently active, showing a table with the following data:

Sr.No	Modules	Field Label	Type	Value
1	Branch	test	number	

Below the table, there is a modal window titled "Add CustomField". This modal contains the following fields and options:

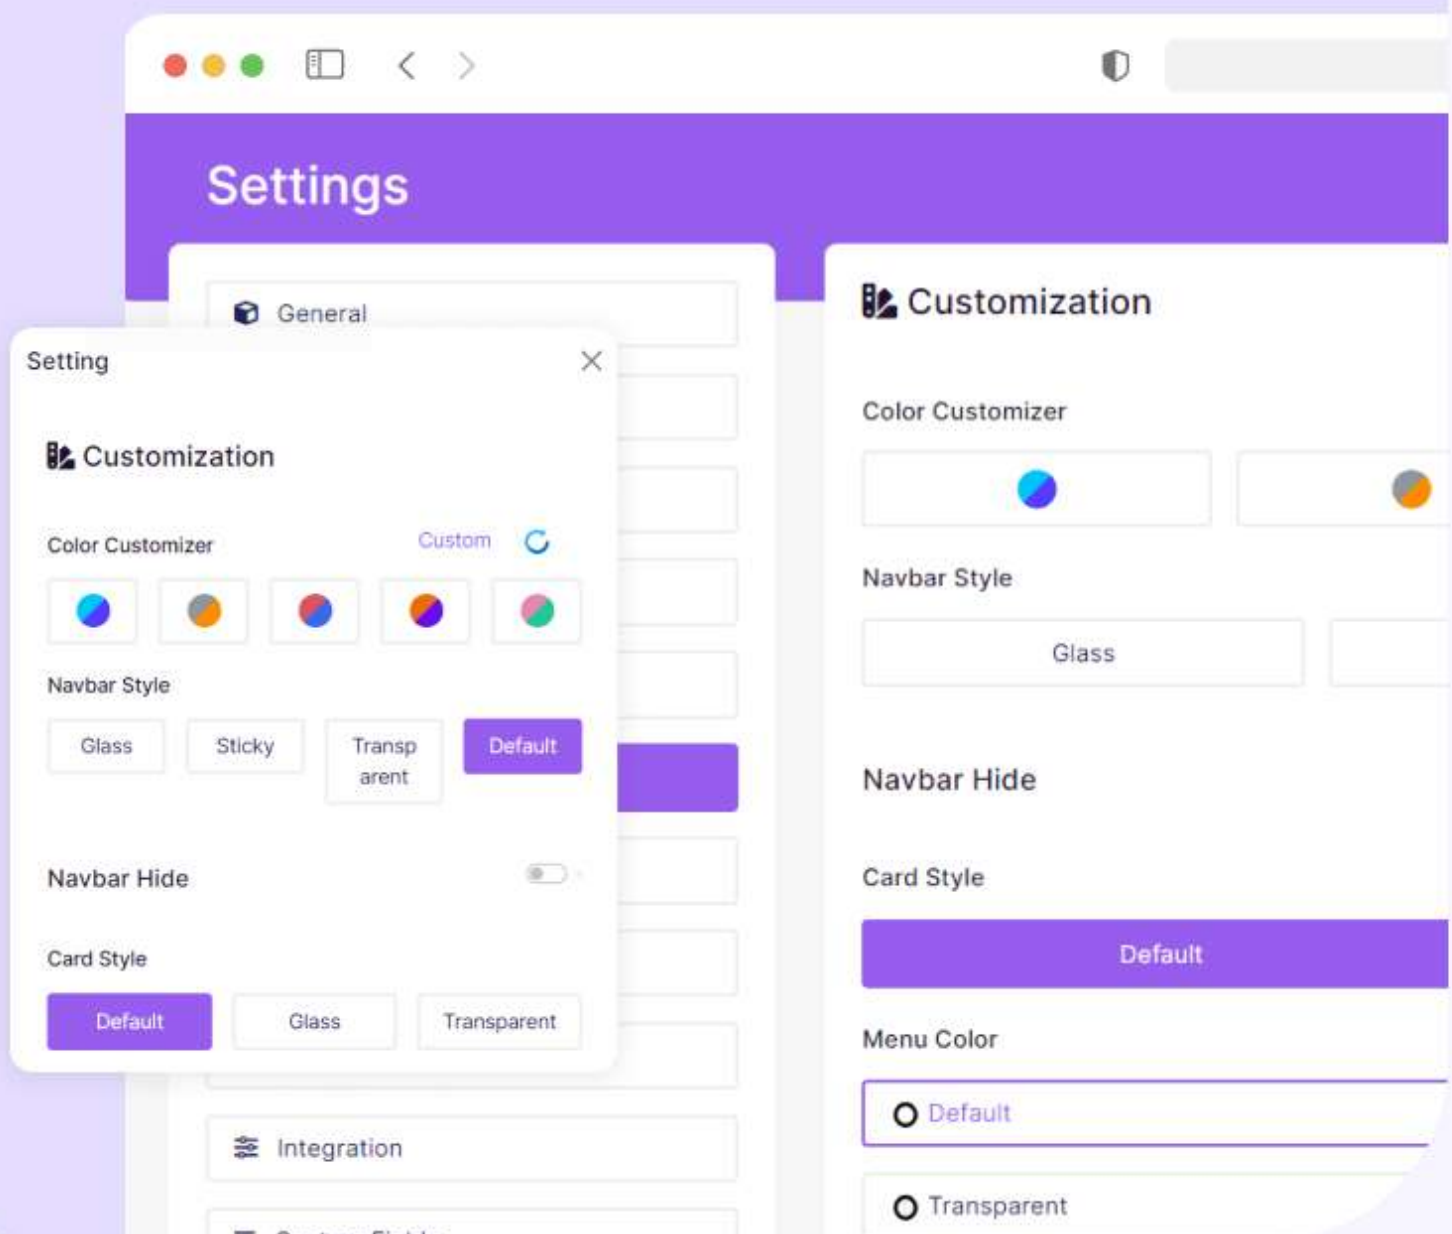

- Module***: A dropdown menu with "Branch" selected.
- Label ***: A text input field containing "blood group".
- Type ***: A dropdown menu with "Text Area" selected.
- Is Required**: A toggle switch that is currently turned on.
- Allow export in table view**: A checkbox that is currently unchecked.
- Show in table view**: A checkbox that is currently unchecked.

At the bottom of the modal, there are two buttons: "Save" and "Close".

Super Powerful Style Customizer

Customize the look and feel of your platform with options like style customization, adding your logo, setting the site name, and even customizing the copyright text.
